# Take the help of your parents

# Weaving Method

(a) A3 Sheet - 2 different colors

(b) Scissor (Should be used by parents only)

(c) Fevicol

Method - (a) Take a 2 rectangular A3 size sheet

(b) Begin by evenly folding one piece of paper in half

(c) Measure and mark lines that will create 2 cm strips

(d) Cut along the lines but importantly from the folded edge.

(e) Using the other coloured piece of paper, simply cut lots of 2 cm paper strips.

(f) Add now the weaving process begins. These individual strips of paper can then be woven through the first paper we started with and before you know it you have some amazing paper placemats.

(g) Now you can laminate for longevity. Take it to school when school reopens positively.
